Testimonial

My name is Peter Botshon, the owner of the Four Seasons Car Wash in Moraine, Ohio.

I contacted Van Con in the summer of 2004 to discuss the design build of a car wash. It was my first experience with construction so I needed a builder that was competent in all aspects of this project. From engineering and layout of the facility to permits and bidding out of business to subcontractors, the team at Van Con did not disappoint. The in house architect, office staff, and site personnel took great effort to help me trim costs and stay within budget. Being my first design build, I appreciated Van Con's professionalism, advice and guidance throughout the process. Special thanks goes out to Sean Olson, Tom Belanich, Jim Connell and Jim Fultz for all their help along the way.

I would not consider additional construction projects without the Van Con team.

Thanks Again,

Sincerely,

Peter Botshon
