Dayton, OH 45414

Tom Belanich:

This is a letter of recommendation for Van Con, Inc. who has general contracted two Fifth Third Bank prototype banking centers (Eaton Branch and Huber Heights Branch) in the Dayton area within the last year. Van Con, Inc. is a “fair and firm” General Contractor completing the projects timely. Fifth Third Banking Centers are built with very aggressive construction schedules requiring daily coordination, control, and performance. Van Con, Inc. conducts themselves professionally and proudly following-up on every detail. Van Con, Inc. makes this business enjoyable and the life of a Project Manager a lot easier. Van Con, Inc. delivers the projects to Fifth Third’s total satisfaction standing behind all workmanship and warranty issues. It is a pleasure working with Van Con, Inc. and will use them for future banking centers.

Sincerely,

Jeffrey Martin
Project Manager
