To Whom It May Concern:

In March of 2003, Sky Bank relocated its commercial and administrative offices for the Dayton district to Beavercreek, Oh. This required a large expansion of an existing banking center at 2374 N. Fairfield Rd. Sky Bank selected Van Con as the general contractor for the construction project. Although the construction occurred during a fairly harsh winter season, Van Con completed the project within the time frame that had been agreed upon. Throughout the process, representatives from Van Con and their sub-contractors were extremely cooperative and communicated frequently with our facilities personnel. Van Con followed up extremely well after we moved into the building to ensure that punch out items were resolved.

The end product reflects quality construction in every aspect and Van Con's professionalism and cooperation were commendable.

Sincerely,

Timothy Pittman
District President
